Linguistics

Dependency in Linguistic Description
Edited by Alain Polguère and Igor A. Mel’čuk
University of Montreal

The book covers three major topics crucial for contemporary syntactic research. Firstly, it offers a sketch of a general theory of dependency in natural language. Different types of linguistic dependencies are distinguished (semantic, syntactic, and morphological), the criteria for their recognition are formulated, and all possible combinations are discussed in some detail. Secondly, it demonstrates the application of the general theory in two specific domains: establishing the system of Surface-Syntactic Relations in French and linear positioning of clitics in Serbian. Thirdly, it presents a formal sketch of Head-Driven Phrase-Structure Grammar modelled in terms of syntactic dependencies.

Foreword
  Igor A. Mel’čuk and Alain Polguère
Dependency in natural language
  Igor A. Mel’čuk
On the status of phrases in head-driven phrase structure grammar:
Illustration by a fully lexical treatment of extraction
  Sylvain Kahane
Establishing an inventory of surface-syntactic relations: Valence-controlled surface-syntactic dependents of the verb in French
  Lidija Iordanskaja and Igor A. Mel’čuk
Linear placement of Serbian clitics in a syntactic dependency framework
  Jasmina Milčević
